# The Most Comprehensive Tech Partner in Equipment Finance

Liventus' acquisition of Tamarack brings together over 50 years of equipment finance domain expertise, seven equipment finance-specific platforms, and the engineering depth to configure and optimize every one of them.

## AI-Accelerated Engineering & Automation

- End-to-end modernization of legacy stacks
- System selections, conversions, and migrations
- Platform integrations, extensions, and data connectivity
- Data integrity, analytics, and intelligence
- AI-accelerated development and workflow automation

For equipment finance organizations that have relied on Tamarack's products and services, this acquisition elevates what's possible. Tamarack clients now have access to a 150+ engineer organization capable of extending, customizing, and leveraging AI within the same platforms they already use.
